

STORAGE AND STACKING OF ROCKWOOL MARINE PRODUCTS

ROCKWOOL Marine products should only be stored in an unheated store room or in the open covered with a tarpaulin.

As to height of stacking, we recommend as follows:

Product	Orientation	Max. height
Marine Batts 32-45	On the flat side	3 m.
Marine Slab 70-200	On the flat side	5 m.
Marine Firebatts 110-150	On the flat side	3 m.
Marine Wired Mats	Horizontal axis	2 m.
	Vertical axis	3 m.

During storage the products must be left untouched. Do not step on them or sit on them.
